

Answers to CFIB candidate survey

1. Very important

2. Increase savings through operational efficiencies, spending on projects which make a difference to the tax base like small grants for low income homeowners to make home improvements.

3. Support/Oppose

Oppose - the city should be attracting the best candidates for positions

4. Reducing red tape Feedback portal Expand hours of service

311 business line

Reduce wait times

5. Roadwork impacts: proper and timely consultations, I would investigate 24/7 summer construction, improve signage around construction for businesses

6. In Elmwood-EK we are seeing many businesses move to the periphery of the community, this results in many small businesses no longer being able to compete. I would set, as a priority, the safety and walkability of our local streets so that residents are more likely to shop and work locally. This includes, but is not limited to, snow clearing, improved parking, beautification and opportunities for local businesses to give back to their community (to influence the changes needed). I will be available personally to help small businesses thrive in our communities.
